

Data-Driven Methods for Engineers
(MECH0107)
- Coursework 1 -

2025 – 2026

Contents

1	Introduction and Problem Statement	1
2	Methodology	1
2.1	Motion Tracking (Image Processing)	1
2.2	Time–Frequency Analysis (Gabor Transform)	1
2.3	Dimensionality Reduction (SVD)	1
3	Results	1
3.1	Tracked Displacement Data	1
3.2	Spectrograms and Frequency Evolution	1
3.3	SVD Mode Decomposition	1
4	Discussion	1
4.1	Physical Interpretation of Modes	1
4.2	Mode Coupling and Nonlinearity	1
4.3	Simplified Analytical Model	1
4.4	Sources of Error and Improvements	1
5	Conclusion	1

- 1 Introduction and Problem Statement**
- 2 Methodology**
 - 2.1 Motion Tracking (Image Processing)**
 - 2.2 Time–Frequency Analysis (Gabor Transform)**
 - 2.3 Dimensionality Reduction (SVD)**
- 3 Results**
 - 3.1 Tracked Displacement Data**
 - 3.2 Spectrograms and Frequency Evolution**
 - 3.3 SVD Mode Decomposition**
- 4 Discussion**
 - 4.1 Physical Interpretation of Modes**
 - 4.2 Mode Coupling and Nonlinearity**
 - 4.3 Simplified Analytical Model**
 - 4.4 Sources of Error and Improvements**
- 5 Conclusion**
